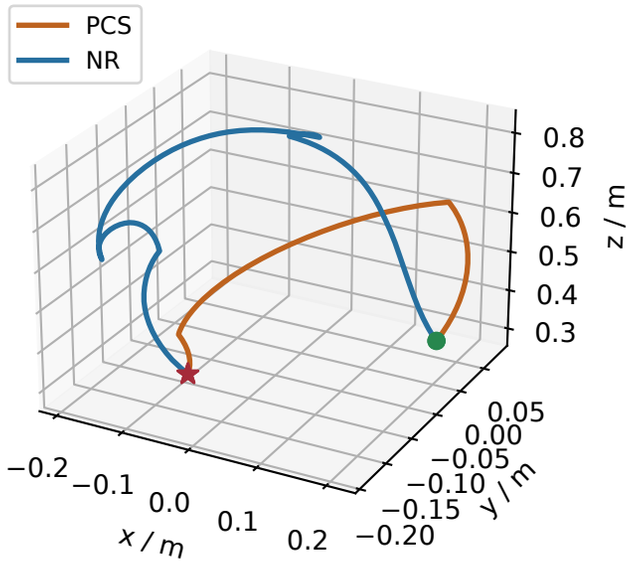
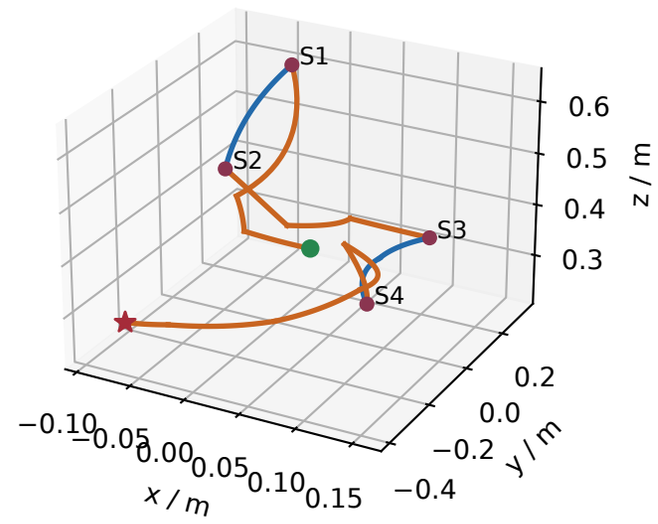
Saved spatial trajectories | position and joint coordinates

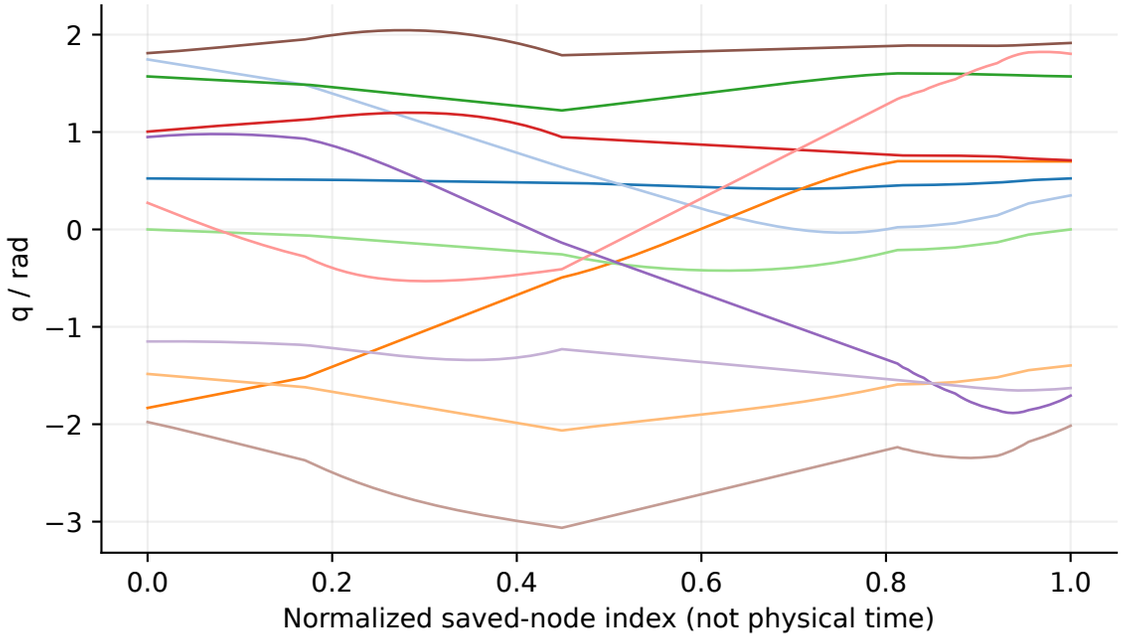
Environment II | object center



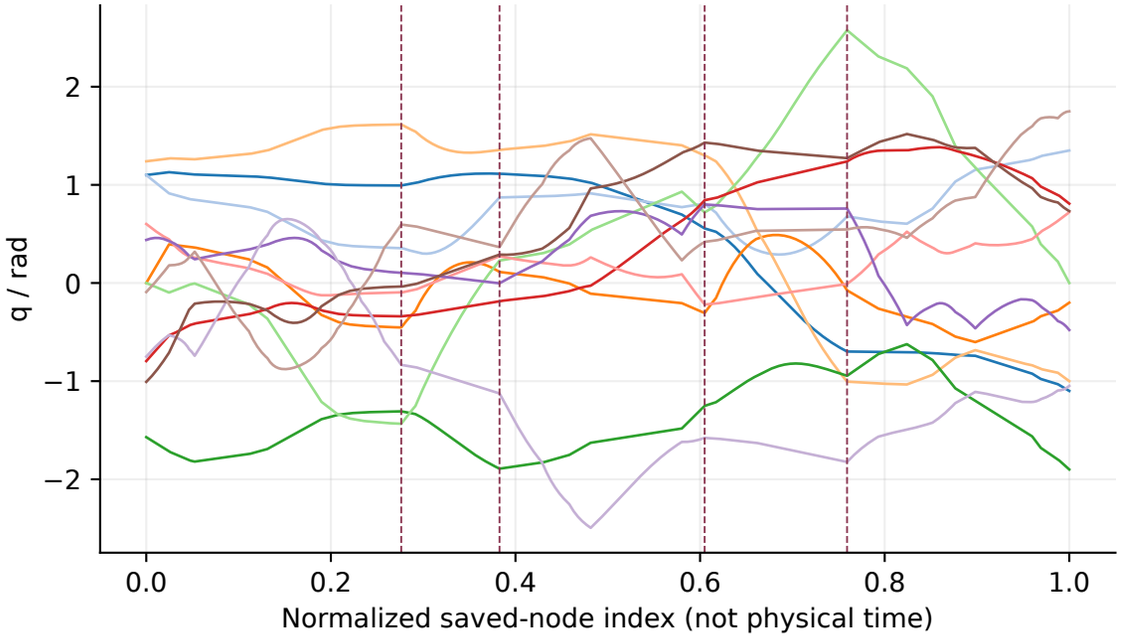
Environment III | object center and role changes



II / PCS | saved joint coordinates



III / PCS | saved joint coordinates



A1 J1 A1 J2 A1 J3 A1 J4 A1 J5 A1 J6 A2 J1 A2 J2 A2 J3 A2 J4 A2 J5 A2 J6

Object center is the arithmetic midpoint of saved TCPs. Lines join recorded states for display; these single examples establish no speed or success advantage.
