Environment II | saved dual ABB IRB120 RRT trajectories

Same reconstructed endpoints and geometry; each displayed pose is an existing qualified discrete node.

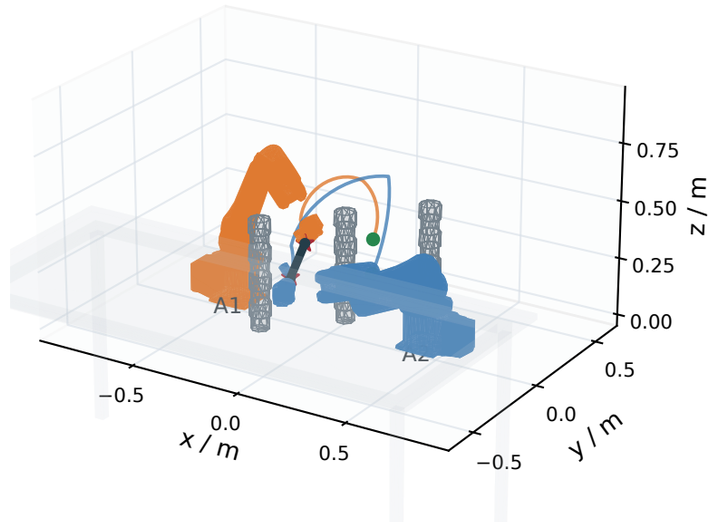

PCS | start | 1/177

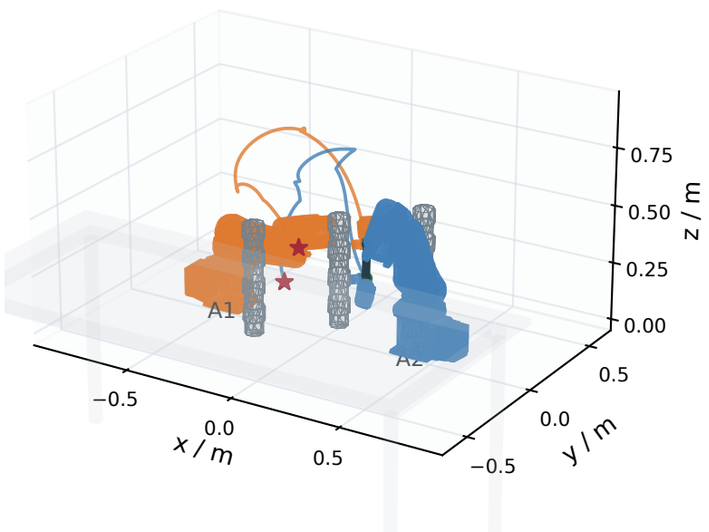

PCS | saved midpoint | 89/177

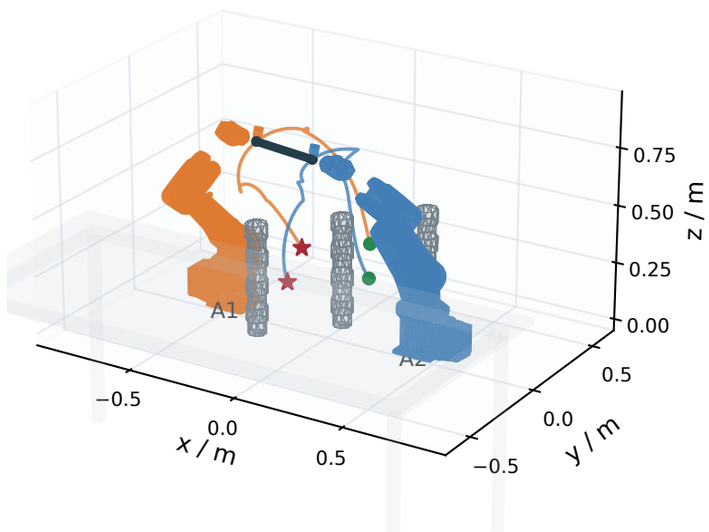

PCS | goal | 177/177

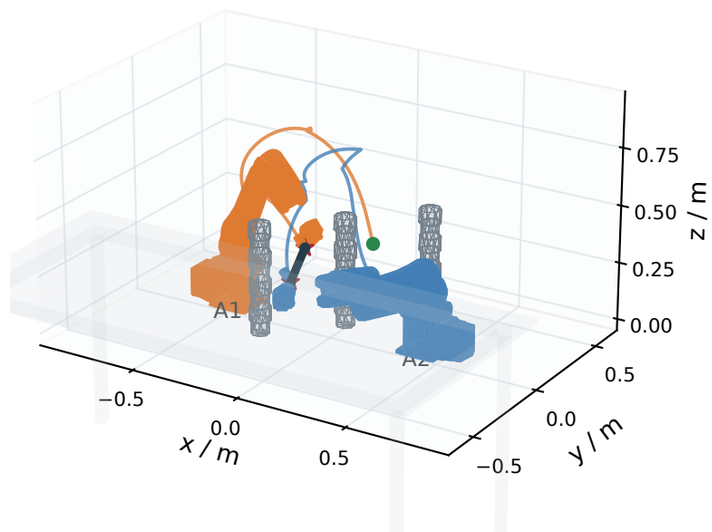

NR | start | 1/393

NR | saved midpoint | 197/393

NR | goal | 393/393

Orange: arm 1 Blue: arm 2 Dark bar: grasped object Green circle: start TCPs Red star: goal TCPs

Source CAD surfaces and aligned frames. Discrete source collision policy only; native TCP equivalence and continuous CCD are not certified.
